 physicians of OAD Orthopaedics*

DuPage Orthopaedic Surgery Center, LLC (DOSC), is a state-of-the-art ambulatory surgical center providing the finest in outpatient orthopaedic surgery and pain management services. A cost-effective alternative to hospitalization, outpatient benefits include quicker recovery and return to daily activities, convenience, personalized attention and greater patient satisfaction. The Ambulatory Care Program and its integrated, peer-reviewed quality improvement program initiatives ensure patient satisfaction is achieved and compliance standards maintained.

Committed to delivering orthopaedic surgical care that exceeds patients' expectations, DOSC's physicians provide surgical expertise in a modern,

convenient and latex-free environment. Efficient check-in and skilled staff accommodate patients and their loved ones in comfortable surroundings specially furnished for safety and personal attention.

A distinctively-designed ambulatory center, DOSC is equipped with the latest in high-definition, digital arthroscopic equipment. Thanks to advancements in medical technology and techniques, a wide range of orthopaedic procedures and pain management treatments are skillfully provided in convenient outpatient settings. Here's a sampling of the procedures performed at DOSC:

- Advanced Arthroscopy, Arthroscopic Repair and Reconstruction
- Small Joint Arthroscopy and Hand Surgery
- Microsurgery
- Carpal Tunnel Release
- Lumbar Microdiscectomy
- Fracture Care

Important to Know...

- Registration, insurance verification and precertification completed by DOSC staff prior to the procedure date. Always have your valid health insurance card(s)/information available.
- Preoperative instructions provided by DOSC nurses and staff. Please obey these instructions to avoid a canceled procedure.
- Postoperative recovery rooms appointed for close monitoring, personalized care, and comfort.
- Postoperative instructions furnished by DOSC clinicians to ensure patient recuperation and a timely return to activities of daily life. Following these instructions is critical to optimum recovery.

Day of Surgery

Do:

- Arrange for someone to drive you home after your procedure
- Bring a storage case if you must wear eyeglasses or contact lenses

Don't:

- Wear jewelry or bring valuables
- Wear nail polish

All the staff at DOSC are focused on providing the very best care to each patient.

If you experience problems related to your procedure during at-home recovery, please contact your surgeon's/physician's office at (630) 225-BONE (2663). For emergencies, seek care at a local hospital's emergency department.
